Shipping services should be easy, affordable and friendly. We strive to offer the best products in all of these key areas and we are proud to announce that yes, we are good... In an era when you need freight quotes fast, inexpensive and reliable, there are not many companies to choose from. From the initial process of obtaining your quote we go above and beyond our competitors. We make it easy for you to obtain quotes via live chat, that way there is no obligation. If you prefer to run your own rates, we can accommodate that to through the use of our online quote form. If neither of those work for you, use the good old fashioned method, pick up your phone and call us! Our live representatives will happily walk you through the numerous options for shipping your freight.

Whether you need guaranteed time critical service, cheapest rates with no time constraints, best freight insurance options, or simply just plain old reliability from a shipping company, our reputation precedes us and our client service is unmatched. After receiving your quote, our reps seamlessly process all of the necessary paperwork, contact the pick up and delivery location to ensure the proper schedule, dispatch a truck to pick up your freight and provide the pick up location with all of the necessary documentation to give the driver. You barely need to lift a finger. Once your shipment picks up and is in transit you rep will follow through with the 3rd stage of providing you up to date and detailed tracking information each day that your shipment is in transit. With Freight Quote Rates, it is simple. Let us know how we can help you today.
